Provide First Aid in an Education and Care Setting

OVERVIEW

This unit focuses on the skills and knowledge required to provide a First Aid response to infants and children in line with First Aid guidelines determined by the Australian Resuscitation Council (ARC) and other Australian national peak clinical bodies.

This unit applies to a range of workers within an education and care setting who are required to respond to a First Aid emergency, including asthma and anaphylactic emergencies. This includes early childhood workers and educators who work with school age children in outside school hours care and vacation programs.

Serious about your Dreams!

COURSE DURATION

This unit is delivered over 1 full day for 8 hours.

Students will be sent pre-reading materials upon enrolment and at least 1 week before the class.

10-12 hours of pre-reading required before attending class.

The Australian Resuscitation Council recommends that individuals refresh this unit every 3 years.

HLTAID012 Provide First Aid in an Education and Care Setting

WHO SHOULD APPLY FOR THIS UNIT?

HLTAID011 Provide First Aid in an Education and Care Setting is a unit for those who are:

- Childcare workers, educators and support staff working within educational and care settings who are required to respond to a first aid emergency, including asthmatic and anaphylaxis treatment for emergencies in infants, children and adults.

CAREER PATHWAY

This CPR and First Aid unit is included in many training packages and the resulting statement of attainment can be used as a credit for a variety of qualifications. Students may wish to complete other First Aid courses such as:

- HLTAID010 – Provide Basic Emergency Life Support
- HLTAID014 – Provide Advanced First Aid

ASSESSMENT METHODS

The following assessment methods are used for the unit of competency, please refer to the Assessment and Delivery Schedule for details of specific task.

- Direct observation – Students will need to undertake CPR on an adult and infant in front of the assessor. Observations will be conducted in either the workplace environment, at a work placement, or in the classroom. Some classroom observations will be conducted in a simulated work environment. Sometimes an observation will be of normal workplace duties and sometimes it's of a specific event, like a presentation.
- Product based methods – These are generally scenarios and role plays.
- Questioning – Written questioning is used as one of the assessment methods. This can be done verbally as a reasonable adjustment for students with disabilities impacting their ability to complete written tasks.

ENTRY REQUIREMENTS

There are no pre-requisites for this course. However, EduNex Training requires that students meet the following criteria:

- Have a suitable level of (English) language, literacy and numeracy skills to complete the course requirements.
- Students must have reasonable fitness to perform the requirements of First Aid, including bending, lifting, kneeling and performing CPR on an adult and infant manikin on the floor.

FEES

Tuition Fee: $150
